**MEMORANDUM**

**SUBJECT:** Request for Waiver of Bi-weekly Maximum Earnings Limitation for the 2015 Gold King Mine Release.

FROM: Martin Hestmark   
Assistant Regional Administrator

TO: Shaun L. McGrath  
Regional Administrator

A significant release of contaminated mine water in Durango occurred due to a break in the berm retaining the water coming down from the Gold King Mine. The release on the Animas River was reported on August 05, 2015. La Plata County is the primary area affected, but numerous other counties and towns downstream may be impacted as well. EPA is conducting an emergency response that requires staff to work long hours (usually 12 hr shifts) nights and weekends, resulting in a need to lift the pay cap to support response activities for this emergency.

This memorandum is to request a waiver for the bi-weekly salary limitations on earnings for the Gold King mine emergency response. This is for employees responding and providing support from the Regional offices. We do not know when the emergency response will end.

The EPA employees are anticipating working long daily shifts including evenings and weekends. Due to this schedule, Region 8 anticipates employees working on this response will exceed the biweekly salary cap.

If you have any questions concerning this request, you may contact David Ostrander, Director, Preparedness Assessment and Response, at 303.312.6827.
